

ICU Team Update — July 2026

July 2026 | Midland Metropolitan University Hospital

RESEARCH CORNER

GenOMICC

Top 15 recruiting sites worldwide.

RELEASE

Top 8 in the UK for recruitment.

SHORTER

Recruiting over target every month.

ABBRUPT

Site recruitment target achieved this week.

MARCH Trial — Published in NEJM

1,956 patients, 71 UK ICUs. Stop using mucolytics (hypertonic saline & carbocisteine) in ventilated ARF — no benefit, both cause harm.

REMAP-CAP Update

Oseltamivir ineffective for 90-day mortality in critically ill flu patients; high probability of harm.

CLINICAL UPDATES

Altered Airway Unity Change

See whiteboard summary outside the coffee room. Thanks to Carol for the artwork.

DAS 2025 Difficult Airway Trolley

New training video + updated laminated algorithm sheets in each zone. Access via SPARC or Vimeo.

Albumin (HAS) Prescribing

Narrow evidence-based role in liver disease. Outside agreed indications, requires explicit consultant sign-off.

SAFETY & QUALITY

Liaison Psychiatry Pathways

Clear escalation routes in and out of hours. In-hours: Dr Kozara Nader. Out-of-hours: BSMHT switchboard.

Peripheral Vasopressor Guideline

Local concentration 20mcg/ml (noradrenaline/adrenaline). CVC first option if escalating or unable to wean in 3 days.

PTH vs Procalcitonin

Check the correct test is selected — recent rise in PTH requested in error.

Organ Donation — Rolling 12mo

100% referral rate, no missed referrals. 7 patients received a transplant.

STAFF NEWS
