

ICU Team Update

August 2026 | Midland Metropolitan University Hospital

Your monthly briefing from the senior team

■ RESEARCH CORNER

GenOMICC Milestone

50 patients recruited in 2026. June: 13 recruited from 34 screened.

Smart Care & RELEASE Trial

Do not use Smart Care weaning for RELEASE Trial patients on the APRV arm - check trial allocation first.

APRV Resources Survey

Short anonymous survey to help improve APRV education - 2 minutes.

■ SAFETY & QUALITY

Discharges to Ward

Bleep Outreach on 6000 and complete observations before every transfer.

ICU Micro Round

Afternoon quiet period - convene off Zone 1/3 where possible (seminar room or Zone 2).

ARDS Documentation

New global ARDS definition presented at ICS SOTA - are we documenting "ARDS" consistently?

Sharp Bins

Check new sharp bins are correctly assembled before use; IRI if faulty.

■ OPERATIONAL MATTERS

Baton Phones Updated

Registrar 07811 714875. SHO Zone 1/3 07811 715049 / 07870 390177. ACCP Zone 1/3 07811 715088 / 07483 701819.

Thu/Fri 0830h Teaching

Teaching (Thu) & journal club (Fri) - ward round moves to 1000h on these days.

Infinity III Pumps

Feeding pumps changing from Infinity II to III once training reaches 80%.

Mandatory Training

Check yours is current; complete anything lapsed promptly.

■ CLINICAL UPDATES

Smart Care & Tracheostomy

Individualised weaning plan for tracheostomy/complex weans - document clearly.

Smart Care & RECO Weans

SmartCare is not suitable for patients on a RECO wean.

Extubation Readiness (SBT)

Document SBTs as part of extubation readiness assessment per the Extubation Checklist.

PREPARE-II Trial

Fluid bolus at RSI doesn't prevent cardiovascular collapse in unstable patients - don't rely on it alone.

Pre-oxygenation Before RSI

Head-up position. PREOXI: positive-pressure mask halves severe hypoxaemia (not always achievable). PreVENT: gentle bag-mask during apnoea also halves it. Use a positive-pressure technique; SpO2 tone on.

■ TEAM NEWS

SWB Trust Star Awards

Patient Choice Award: ICU Outreach Team. Clinical Unsung Hero: Sophie Whiles.

Congratulations Lauren

Lauren Price has safely delivered baby Archie.

Farewell Megan

Megan Farrington leaves ICU after 3 years - thank you and good luck.

■ LOOKING AHEAD

FICM is Now CICM

Independent Royal College status from 1 July 2026 - no change to day-to-day practice.

EEG in the ICU Study Day

Thu 11 March 2027, 09:15-17:00. External CPD, hosted by ILAE British Branch.

ICU M&M Dates

Thu 24 Sept and Wed 18 Nov, 1530-1730, seminar room, F2F only.

Work Social - Cliff Lakes, Sat 5 Sept

Aqua park day out, family & friends welcome. Sign up on the unit.

Halloween Work Party - Sat 24 Oct

Thimblemill Recreation Centre. Full fancy dress is a must!
